DETAILED ACTION

Election/Restrictions

Newly submitted claims 52-54 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 52-53 are directed to species not originally elected.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 52-53 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

Applicant's arguments filed July 3, 2003 have been fully considered but they are not persuasive. The spinal cage of claim 34 was treated as a "product-by-process" claim. Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. As noted in the prior office action, Gayer et al. does in fact disclose a spinal cage (col. 13, lines 34-38). The purified collagen of Gayer et al. is a moldable osteoinductive and can be placed into the spinal cage noted above. The Applicant's argument that the resultant product of the process and the spinal cage of the prior art are not the same is not persuasive requires

Application/Control Number: 09/747,038

Art Unit: 3738

evidence establishing the difference between the claimed product and the prior art product.

Specification

The incorporation of essential material in the specification by reference to a foreign application or patent, or to a publication is improper and still has not been addressed. Applicant is required to amend the disclosure to include the material incorporated by reference. The amendment must be accompanied by an affidavit or declaration executed by the applicant, or a practitioner representing the applicant, stating that the amendatory material consists of the same material incorporated by reference in the referencing application. See *In re Hawkins*, 486 F.2d 569, 179 USPQ 157 (CCPA 1973); *In re Hawkins*, 486 F.2d 579, 179 USPQ 163 (CCPA 1973); and *In re Hawkins*, 486 F.2d 577, 179 USPQ 167 (CCPA 1973).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Application/Control Number: 09/747,038

Art Unit: 3738

Claims 34 and 37 remain rejected under 35 U.S.C. 102(e) as anticipated by Gayer et al. (6,214,049). Gayer et al. discloses a spinal cage comprising an osteogenic insert made of purified collagen and an osteoinductive substance (col. 10, line 66- col. 11, line8), which induce osteogenesis in a subject when inserted into disk spaces of lumbar vertebrae after discectomies (col. 13, lines 34-38).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas C. Barrett whose telephone number is (703) 308-8295. The examiner can normally be reached Tuesday-Friday between 9:00 A.M. and 6:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (703) 308-2111. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-3580 for regular communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308 0850.
